We have recently acquired an agency for
all ITR products.

We are one of very few undercarriage providers in the Leinster area, *based only fifty minutes outside of Dublin.* We can work on a supply only basis but we do have the added benefit of a fitting service at very competitive rates.

Machine Plant Fitters

Machine Plant Fitters (MPF), was established in 2010 by Stuart Kennedy. We are a maintenance and service provider for all heavy plant machinery. We service and maintain Hitachi, Volvo, Thwaites, Komatsu, Bomag and Terex machines to name but a few. We have four experienced and insured mobile mechanics, that are fully equipped to deal with any type of breakdown & maintenance scenario.

MAIN APPLICATIONS

The ITR undercarriage product line offers the most complete range available in the market, which includes standard excavator and dozer applications along with a full range of undercarriage components for asphalt, drilling and logging machinery. Production flexibility and design expertise also places ITR undercarriage line in a good position to provide "custom-manufactured" products for special applications.

G.E.T. GROUND ENGAGING TOOLS

ITR product range comprises a wide selection of products among which giant shank and multishank rippers (ripper protectors, shanks, tips, scarifier shanks and tips), scrapers and compactors parts (cleaner bars and bar tips, compactor tips, scraper router bits and scraper blades), bucket wear protection parts (wear plates, side-cutters, side and corner protectors, wear buttons, chocky and armoured bars).

We also provide a diagnostic service for all Volvo, Hitachi, Fuchs and Bomag machinery & Deutz engines.

Stuart Kennedy: **087 912 9629** MPF Office: **057 8629914**
